"Driven by a robust June 18 sales campaign, our GMV continued to gain growth momentum during the quarter while total revenue grew at its fastest pace over the past three years," commented Mr. Vincent Qiu, Chairman and Chief Executive Officer of Baozun. "Our GMV growth rate during the quarter outpaced many e-commerce marketplaces demonstrating just how effective our stellar tools are and the unique value proposition we offer to both international and domestic brand partners. In addition, we deepened cooperation with China's largest e-commerce marketplace to enhance the shopping experience and increase user engagement on their dedicated channel for premium and luxury goods. This will allow us to further penetrate into and benefit from the enormous growth potential in this category. Our focus this year remains on leveraging the additional capacity our technology and tools are creating to benefit from an expanding addressable market and generate high-quality growth."

Mr. Robin Lu, Chief Financial Officer of Baozun commented, "Our top line exceeded guidance during the quarter, with total revenue growing by 47% year-over-year while GMV increased by nearly 60%. In addition, we are glad to see incremental contribution to GMV from more newly-acquired brands. We generated over RMB100 million in non-GAAP income from operations for the first time during a non-Singles Day quarter, a significant milestone for us. During the second quarter of 2019, our investments in technology innovation and productization totaled RMB21.1 million. So far in the third quarter, we are accelerating the ramp up of operations for newly-acquired brands and are reinvesting some of our sustained profits to capture selected emerging opportunities. We are confident in our growth prospects, and expect GMV to grow by 40% to 45% year-over-year for the third quarter of 2019. We also reiterate our outlook where we expect GMV to grow by 40% to 50% year-over-year during fiscal year 2019."

# **Use of Non-GAAP Financial Measures**

The Company uses non-GAAP financial measures in evaluating its business. For example, the Company uses non-GAAP income/(loss) from operations, non-GAAP operating margin, non-GAAP net income/(loss), non-GAAP net margin, non-GAAP net income (loss) attributable to ordinary shareholders of Baozun Inc. and non-GAAP net income (loss) attributable to ordinary shareholders of Baozun Inc. per ADS, as supplemental measures to review and assess its financial and operating performance. The presentation of these non-GAAP financial measures is not intended to be considered in isolation, or as a substitute for the financial information prepared and presented in accordance with U.S. GAAP. Non-GAAP income/(loss) from operations is income/(loss) from operations excluding the impact of share-based compensation expenses and amortization of intangible assets resulting from business acquisition. Non-GAAP operating

margin is non-GAAP income from operations as a percentage of total net revenues. Non-GAAP net income/(loss) is net income/(loss) excluding the impact of share-based compensation expenses and amortization of intangible assets resulting from business acquisition. Non-GAAP net margin is non-GAAP net income as a percentage of total net revenues. Non-GAAP net income (loss) attributable to ordinary shareholders of Baozun Inc. is net income (loss) attributable to ordinary shareholders of Baozun Inc. excluding the impact of share-based compensation expenses and amortization of intangible assets resulting from business acquisition. Non-GAAP net income (loss) attributable to ordinary shareholders of Baozun Inc. per ADS is non-GAAP net income (loss) attributable to ordinary shareholders of Baozun Inc. divided by weighted average number of shares used in calculating net income (loss) per ordinary share multiplied by three.

The Company presents the non-GAAP financial measures because they are used by the Company's management to evaluate the Company's financial and operating performance and formulate business plans. Non-GAAP income/(loss) from operations and non-GAAP net income/(loss) enable the Company's management to assess the Company's financial and operating results without considering the impact of share-based compensation expenses and amortization of intangible assets resulting from business acquisition. The Company also believes that the use of the non-GAAP measures facilitates investors' assessment of the Company's financial and operating performance.

The non-GAAP financial measures are not defined under U.S. GAAP and are not presented in accordance with U.S. GAAP. The non-GAAP financial measures have limitations as analytical tools. One of the key limitations of using non-GAAP income/(loss) from operations, non-GAAP net income/(loss), non-GAAP net income (loss) attributable to ordinary shareholders of Baozun Inc., and non-GAAP net income (loss) attributable to ordinary shareholders of Baozun Inc. per ADS is that they do not reflect all items of income and expense that affect the Company's operations. Share-based compensation expenses and amortization of intangible assets resulting from business acquisition have been and may continue to be incurred in the Company's business and is not reflected in the presentation of non-GAAP income/(loss) from operations and non-GAAP net income/(loss). Further, the non-GAAP measures may differ from the non-GAAP measures used by other companies, including peer companies, and therefore their comparability may be limited. In light of the foregoing limitations, the non-GAAP income/(loss) from operations, non-GAAP operating margin, non-GAAP net income/(loss), non-GAAP net margin, non-GAAP net income (loss) attributable to ordinary shareholders of Baozun Inc. and non-GAAP net income (loss) attributable to ordinary shareholders of Baozun Inc. per ADS for the period should not be considered in isolation from or as an alternative to income/(loss) from operations, operating margin, net income/(loss), net margin, net income (loss) attributable to ordinary shareholders of Baozun Inc. and net income (loss) attributable to ordinary shareholders of Baozun Inc. per ADS, or other financial measures prepared in accordance with U.S. GAAP.

The Company compensates for these limitations by reconciling the non-GAAP financial measures to the nearest U.S. GAAP performance measures, which should be considered when evaluating the Company's performance. For reconciliations of these non-GAAP financial measures to the most directly comparable GAAP financial measures, please see the section of the accompanying tables titled, "Reconciliations of GAAP and Non-GAAP Results."
